It can be affected by things like worries about money, work, your home, the people around you and the environment you live in. Your wellbeing is also affected by whether or not you feel in control of your life, feeling involved with people and communities and feelings of anxiety and isolation.

QR/ text survey feedback we have received from patients this month

Always on time. Mr Shaikh and his minor surgery assistants are absolutely brilliant, so kind, patient and I feel very safe in their care. Recovery is always really good compared with previous experiences and I wouldn't ever hesitate to recommend people use Community Healthcare at Marisco Medical Practice for minor surgical orthopaedic procedures. The facilities are second to none, the venue is accessible. You get appointments through so quickly and it's healthcare delivered in your community to an extremely high standard. Everything is explained really clearly and the procedure is performed in record speed but maintaining incredible quality. Thank you Mr Shaikh and Community Healthcare for changing my life and giving me relief.

Great treatment, nurses and doctor were amazing

Fantastic first class service by a very kind and professional lady. Very pleased.

Nothing I can suggest the appointment went well and professionally in every aspect.

Knowledgeable and friendly staff, explained everything and put you at ease.

Seen on time. Quick, efficient, questions answered. Thankyou.
