Health & Wellbeing Resources

Health and Wellbeing is about being emotionally healthy as well as physically healthy. It's feeling able to cope with normal stresses, and living a fulfilled life. It can be affected by things like worries about money, work, your home, the people around you and the environment you live in. Your wellbeing is also affected by whether or not you feel in control of your life, feeling involved with people and communities and feelings of anxiety and isolation.

Community Healthcare recognises that our employees have a direct impact on our clinical outcomes and the experience of our patients. When our staff are healthy, well and satisfied, the experience of our patients improves.

QR/ text survey feedback we have received from patients this month

Everyone was very professional and very welcoming.

The surgery went very smoothly, I was given all the information I needed.

All went well and happy with the service, thank you.

Very kind made me feel relaxed. Definitely recommend these.

As always a professional and caring service with good advice.

Friendly & helpful staff both on the Louth phone number for booking appointments and at the clinic.

The lady was very informative about the procedure.

Great communication and so much care given.

The doctor explained everything clearly and was as lovely as the rest of the staff.
